

Your Practice. Your Preference.
Your Productivity Solution.

ORPHEAL-RIS

VIZTEK

Opal-RIS

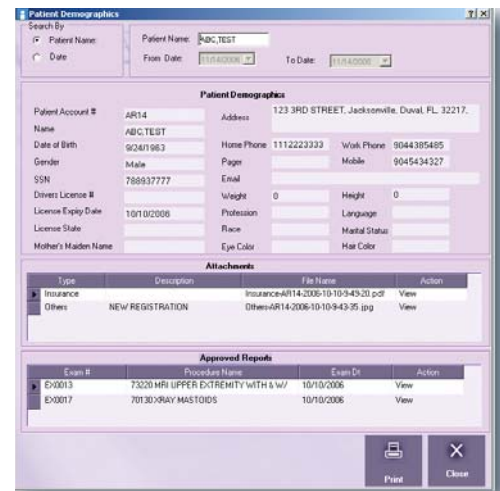

Radiology management Redefined

Powerful, easy-to-use, and affordable, Opal-RIS is the key to advanced digital management of your radiology business, from patient scheduling and registration to report dictation and billing. Opal-RIS shares a single database and works seamlessly with Viztek's state-of-the-art Opal-RAD PACS to create a complete solution for efficient patient care and business workflow. Its standards-based architecture integrates with any third-party HIS, dictation, billing, PACS and more to make the most of any applications already in place. The result is a system fine-tuned to your specific needs.

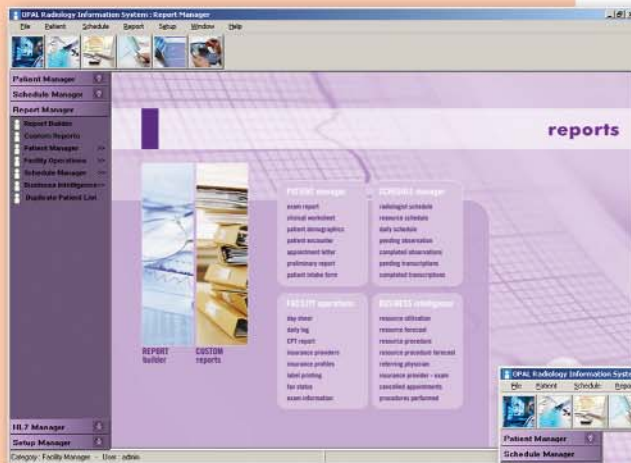

With an intuitive, Windows-based interface and easy-to-use features, Opal-RIS is simple to learn and integrate into your radiology practice. Opal-RIS streamlines the myriad of tasks involved in your day.

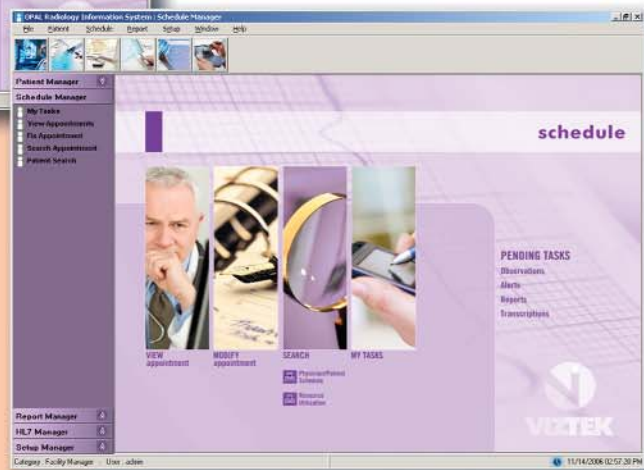

PATIENT MANAGEMENT

PATIENT MANAGEMENT

FACILITY REPORTING

SCHEDULING

Discover a More Efficient and Profitable Workflow Today with Viztek's Opal-RIS.

Dictation and Transcription

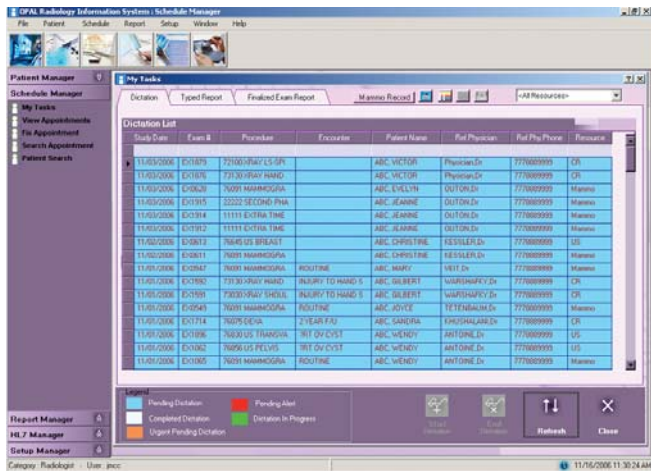

Whether onsite or remotely over the Web, dictate reports right into your RIS patient files for access by your transcriptionist. Our advanced software also provides an easy interface for voice recognition to automate the entire exam reporting process, from start to finish. You can even sign off with a digital signature.

Report Delivery

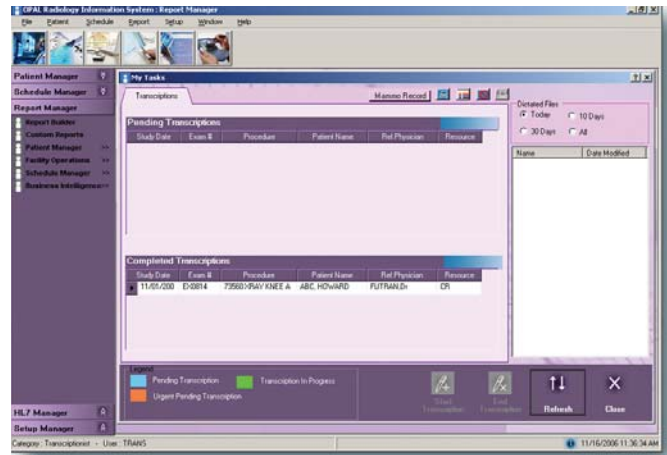

Forget time consuming printing and manual faxing. Opal-RIS automates report delivery to referring physicians, specialists, or others, speeding information where it needs to go. Opal-RIS can utilize comprehensive patient and referring physician information from your other applications, combine it with your study reports and deliver it automatically and efficiently by fax or email, saving your busy staff hours each day.

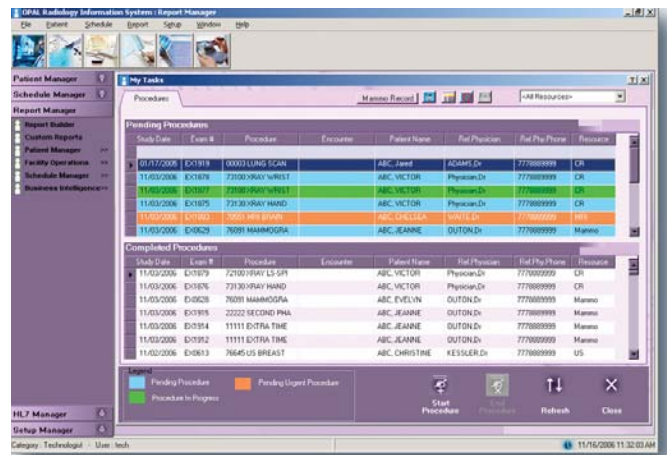

MULTI-FACILITY SCHEDULING

DICTIONATION MANAGEMENT

TRANSCRIPTION

PENDING PROCEDURES

Billing

Enjoy a new level of efficiency with Viztek's optional integrated Opal-Billing module, which delivers full electronic filing compliance and shares the same database as our RIS/PACS. Opal-RIS is also fully compatible with your current billing application.

Facility Reporting

Step up referrals, productivity and profits using our comprehensive facility reporting feature. Who are your major referrers? Are your modalities being used to capacity? How efficient is your workflow at a specific site or across multiple locations? Take advantage of our automatic reporting to track these and other important issues. Analyze trends and build your business.

The Viztek Value Proposition

Our technology is leading edge. Our support and upgrade policy are state-of-the-art. Make your move into the digital world easily and affordably with Viztek.
